

Question 6: What other type of spaces would you prefer in Upper Place Riel?

(non-Huskey) Clothes Store

A bank.

a bigger area for eating

A brighter area to sit and read would be nice.

A coffee place would be cool space where you can wait for the bus but also do homework at a table.

A coffee shop would be nice to have.

A comfortable lounge area with big screen tvs and comfortable couches

a computer lab

a gallery of student works (ie a small space to showcase work done by students)

A Huge Clock Tower in front of Place Riel.

a laundry mat for the non Res students would be a good thing to try out. A grocer/convenience store too (ie Max, 7-11) would be nice too.

A lounge area secluded from the main walkways.

A nice art exhibition or something cultural that reflects the personality of the student body as a whole

A place where students can just relax and chill out with friends

A place where you can just sit and relax, most of the space downstairs is a place to eat, not sit and chat.

A quiet place to study.

a sit down restaurant

A small bookstore

A store with fresh food and a tea store and lounge (like Steeps)

A sweet cafe

A type of band stand for rallies, small forums and concerts-something permanent and multi functional when not directly in use.

a warm indoor area to wait and watch for the busses coming

Aesthetic structures like fountains and plants.

An area that is available for all students to book a room in order to have group meetings, also there should be at least one room that has a computer projector so that students can practice group presentations.

An area to eat. It's really annoying to pay ten dollars for food and you still can't eat your food at a table. And better food shops.

An increase in food stores as well as the eating areas would be nice.

As well as just more seating areas to relax in.

Another Bank ATM would be great, preferably TD

Another bank machine (TD Canada Trust). Coffee Shop.

anything but retail

Appropriate as is.

Appropriate Bus Waiting area. There should be heated, indoor waiting areas for both eastbound and westbound passengers. More Seating for socializing and relaxing. Study space is for the library.

art

art projects - such as sculptures, audio visual, and specially-designed furniture, light fixtures etc.

As far as I am concerned, Place Riel provides all that I can ask for. It could use a different selection of food, however.

ATM's, coffee shops

bank machines.

Bank, Starbucks, bathroom

Bathrooms

bathrooms

bathrooms (good ones)

-better seating -more Food options

Better selection of food services. Less expensive and healthier.

Better spaces for waiting for busses.

better tables for laptops

Better use of space for seating--how about no poster sale?

Big Couches

bigger place to wait for the bus in doors.

Board Room Multi Purpose area

Break-out rooms (online booking).

Buisness Stores

Chairs and desk, like eating area in lower place riel

Cheaper food... A&W is crap and expensive for fast food. Maybe a little caesars pizza place with them hot and readies!

CIBC ATM, public computers for students, Booster Juice, Orange Julius

clean couches & chairs

Clean quiet areas to read and study outside of the library. Like the 3rd floor of the arts Library but comfier and cleaner.

Clean, properly maintained, quiet, plug ins available study area.

Club space

Coffee place where you can sit down... like in the Geology building.

Coffee shop (preferably not Tim Horton's), lounge area

Coffee shop or lounge-type space

comfortable seating areas to visit with friends.

Comfortable waiting area for bus services. Bus shelters!

comfy CLEAN seating

Commercial space with hairdresser. Da bomb was da bomb.

Commercial.

common space, mutli-use, comfortable. No more escalators

Computer access

computer terminals

Conference areas, Campus Club Space, Club mailboxes, New Council Chambers for USC

Consistently working escalators.

Couches

don't know

everything works how it is right now

Expanded chairs and hang-out space conducive to socializing (not just by the doors waiting for the bus). To get an idea of what I'm talking about, check out the Student Life Centre (similar to Place Riel) at the University of Waterloo.

Extra seating for passing time between classes

Fast food

fast food

general seating for gathering with friends (not unlike what is there now!)

Generally more comfortable seating areas.

good club spaces

gotta keep the money machines for sure!!

Green spaces!! Lots of plants, space for a weekly farmer's market set up, and space for students to throw their compost-ables.

grocery store with fresh food available, along with other everyday supplies. so that students could pick up a few things if they were in a hurry without having to go to actual sobeys or safeways

hair/aesthetics salon (with student-based prices)

have better seating areas in upper place, more like a place for students to visit with their friends while waiting for busses

Huge lounge to hang out, dining place, etc.

I am just looking forward to when Upper Place Riel is used as the bus terminal again.

I don't really go to Upper Place at all, the only reason I go once a week right now is because the Geology Tim Hortens isn't open right now

I don't really think Upper Place needs anything else. It works perfectly fine for what its use is intended to be. Any change will just cost students more money.

I just want it more clean, like the sofa something.

I like how lower has the food part and upper does not, if im in upper its usually waiting for a bus

I like it the way that it is.

I like the wide open areas with chairs, but I think we could use more

I like Upper Place the way it is now.

I really like the Post Office being in Upper Place Riel, A Hair Salon.

I think everything was covered generally.

I think in general just making it look brighter with less dingy looking chairs would be nice. Even possibly making a small expansion for an eating area would be ideal.

i think it is pretty good as it is

I think it would be cool if they made it look brighter, it's so dark in there, it needs some sky lights.

I think the set up is fairly good. There are chairs to sit in to just hang out with friends, or if you're waiting for a bus. Also vending machines, pharmacy, information. Im happy with it!

I use it mostly as an in-between place between destinations. I am happy with the services and retail that is available now - I wouldn't like to see it become overly commercial. Perhaps a lounge type area would be nice.

I would just like a place where I can sit and hang out between classes. Meet with friends during these breaks. Be able to do a little studying too would be great.

I would like it to be open and welcoming, with tables and couches... and a tea and coffee place... and Help services ... library help, study help, place to get supplies ... things people need quickly

I would like more seating for those waiting for their buses.

I would like more sitting areas, a quieter place to study and more food services.

I would like to be able to buy more types of things without leaving campus

I would like to see a place where there is a great view of the bus mall. This place should be warm and allow students to watch for their buses without getting cold.

I would like to see an upgraded area for people to sit and wait with nicer seats, some tables, maybe a TV to keep people occupied.

Washrooms would also be an asset right in Upper Place Riel.

I would like to see more food stalls there.

I would prefer Place Riel to have more available seats for eating areas, the downstairs eating area is at the most twenty tables, quite small for the main eating area of a university.

I wouldn't

I wouldn't like to see it converted into an eating area. I don't know what I want, I only know what I don't want. Eating areas, stores. There is already a place with game. More lounges would be nice. The arts lounge sucks.

I'd like to see a quiet seating area with options to plug in my laptop and comfy chairs.

If you can, make a big skylight. Put a big tree in the middle and put tables around the tree.

info desk, post office

Information kiosk must be kept

Information on city wide services that students can take advantage of.

internet cafe type places

it definitely needs WAY MORE sitting space!!!! also some better food options will be good too. and it should look nicer in general and have big enough walkways for everyone to walk through b/w classes.

It would be cool to have some decorative artwork, architecture, or plants and water features. I really enjoy spending time in places that have these nice characteristics such as the agriculture building, and the bio/geo building.

It would be good to have the information desk more easily accessible and visible.

It would be nice to have a decent place to meet for coffee with friends.

It would be wonderful to just have a beautiful area in Upper Place Riel - an indoor garden would be a really cool addition.

it would make sense to put some kind of short term entertainment like what happened in loser place riel. This would help to entertain the people whom are waiting for city tranist. Once the strike is over of course.

it'd be nice to have more food service. A coffee stop would be great for those passing through to the bowl.

it's fine the way it is

Just a really aesthetically pleasing change, frankly any change will be better.

just a sitting area, like how it is now but maybe with more seats

Just an expanded version of the present Place Riel. Build on what has been working for it, the food, the seating. Really improve on that one because you're lucky if you're able to find a spot to sit and eat some food between classes.

Just general Lounge type seating to sit and either wait for bus or just converse with fellow students.

Just more seating would be nice

Just somewhere cool to hang out in between classes

Keep the info centre, the post office, atms

Laptop or computer lounges.

leisure and study space maybe some eating areas

leisure area but not games - will kinda make it noisy

Less ATM's and more seating

less is more. a dental clinic ooooooooooooooooooooooh

LONGE AREA, Better couches and chairs, a tv that can actally be changed, more current news-free newspapers(like in the Library)

lots of comfy couch/seat type things, place riel is a super fun place to chill and see people cuz so many ppl pass thru there on a regular basis

lots of places to sit

lounge

Lounge Rooms but not game rooms

Main Bulletin Board of campus happenings Information Centre

Mainly casual space for hanging out

massage chairs

Massive student lounge

maybe a drink area

Maybe a hairdresser. I'm not aware of one on campus. Somebody could make some money offering good quality haircuts to students @ discount prices.

maybe another food service

meeting and seating areas

meeting friends

More areas to lounge around while you wait for the bus

more choices of food retailers

More comfortable couches, maybe a healthier food service such as a booster juice or a Quiznos or Subway.

More common fast food chains (Burger King). and cheaper prices. I do encourage a stress release shop. it could prove really useful. such as breaking plates, or crushing something. (I reserve rights for the idea!!!!)

More eating areas than just one

More eating space, the space in lower place is too crowded, I have so many times not bought anything to eat from place just by looking at the amount of people and that people have to stand and eat.

more food court

more food establishments

more food options- perhaps a deli place? with good salads
STARBUCKS

More FREE phones

more free phones maybe computers

More lockers to store heavy items, such as backpacks, winter jackets, and textbooks.

More meeting areas

more modern space, decor-wise

more places to lounge

More plants.

More restaurants -- maybe a sit-in restaurant -- and more SPACE to SIT!!! (Go visit the U of C MacEwan Hall!!!)

More restaurants and businesses.

more room so that it's not so crowded

more seating

More seating and bathrooms!

more seating and food services

more seating and tables

more seating. just to eat and talk to friends

more seating/waiting area for the buses!!

More seats

More sitting area.

More sitting areas

more space for lockers

more space in general, and a larger entrance with an area for waiting for the bus with windows.

more space to be able to eat lunch/supper.

More spaces to sit around and wait for the bus or a place to chill before your next class. There isn't enough places to sit. I would also like something to look at besides dirty chairs.

More tables for eating and seats for socializing.

more things, right now upper place just seems like a hallway, everyone walks through but no one stops there

multi purpose rooms

N/A

N/A

N/A

na

nice, warm, entertaining place to wait for the bus- right now the doorway gets too crowded with people

Nicer place to wait for the bus.

no opinion

Non-commercial arts and culture initiatives.

none

None

None needed

none that I can think of

None.

not exactly, i prefer to stay in the lounge place to watch TV there.

Not tonnes of food chains! I'm sick of fast food. I like the meeting areas/sitting/quiet areas idea best. More sunlight would be nice.

Nothing

nothing

nothing comes to mind

Nothing it is crowded as is and it terrible to get off the bus and onto the esclators.

nothing that I can think of

Nothing that I can think of.

Nothing, but you made me select 3 choices.

Open spaces for better flow-through, sitting/meeting areas

open spaces for setting up booths and kiosks that does not block traffic

perhaps an area with a lot of seating would be good. people tend to wait for the bus inside and the square benches currently there aren't overly useful

perhaps space for campus clubs

Ping Pong tables

Place Riel doesn't really need to be changed.

Place Riel should have more seating areas for students to eat their lunches.

Place to sit while waiting for friends, bus etc.

place to wait for the bus

Places for students to hang out and get information. The Centers (women's center, pride center, etc) should be there.

Places to meet people. Chairs rather than rooms but still open space.

Places to relax and socialize with friends. It is to busy of a place to have any main seating for eating, etc.

places to sit

Places where students can visit and talk.

Places with tables and chairs.

Possibly an sitting area with an open ceiling to let natural light in.

Post office and information center, as well as the bookstore, USSU office, and Health&Dental Plan Office

quiet area

Quiet room

Rec rooms, A big, huge, QUIET study hall.
seating area, commercial space, lounge,
Seating areas and more food places
seating for people waiting for buses in the winter.
seating for waiting for the bus
sitting spaces, atrium
Small grocery store
Social places, comfortable chairs where you can talk with a friend or a large group of friends without straining to hear them.
Some comfortable area to read eat lunch when alone, with good reading chairs that aren't made of plastic.
Some more greenery! if possible.
Some other grab and go food stop other than crepes. Perhaps a taco time or wing nuts.
Some sort of covered walkway across the bus mall would be nice, although probably not financially feasible.
Space to sit back and relax - to visit with friends.
Spaces with bright and CLEAN rooms
study spaces
tables and chairs for study areas.
Tables would be good just like in lower place to hang out and wait for buses, given CUPE doesn't go on forever!
TD Canada Trust banking machine. It is the only one not on campus and it sucks
The chairs are absolutely horrible in upper place riel. Those definitely need to be changed. They are uncomfortable and awkward to sit on. Some new benches or couches would be nice.
The entire area is really open which leads to a loud atmosphere, plus the seating doesn't encourage people to stay around because you are in the way of traffic
the most important thing to me is to have more space to eat and study.
The poster sale should be relocated to one of the new areas; it makes it a hassle to go through upper Place when the sale is going on.
tim hortons open until midnight
tv room to relax and watch sports or news
TVs with bus arrival times so that you don't have to sit outside and wait for buses if they're late.
undecided
Upper Place needs more area for chairs and tables.
Waiting area.
warm place to wait for the busses
Washrooms
Washrooms
Well, obviously the kind of rest areas we have now. But also, a sort of general space for things like the IMAGINUS Poster Sales, so Place Riel doesn't become a maze for a week.
